

Zapier

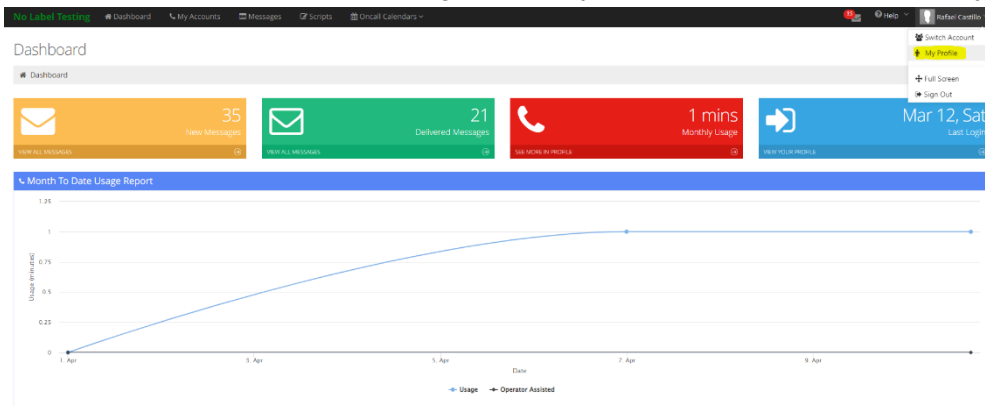

When an agent takes your call, we can pass critical information and data from your custom-built script through Zapier. Zapier then helps automate the key fields pushing to your internal systems. By linking your Answering Service Care account to Zapier, you will be able to save time by automating a process that may have previously been done manually.

- Save time by automating your message data
- Increase speed to lead
- Reduce Human error
- And more!

How to Connect to Zapier:

Find your API Key

1. Log in to your [Answering Service Care](#) Account.
2. Click on your name listed in the corner, select “**My Profile**” from the drop-down.
3. Select the option “**Application Keys**” under your profile information to find your API Key.

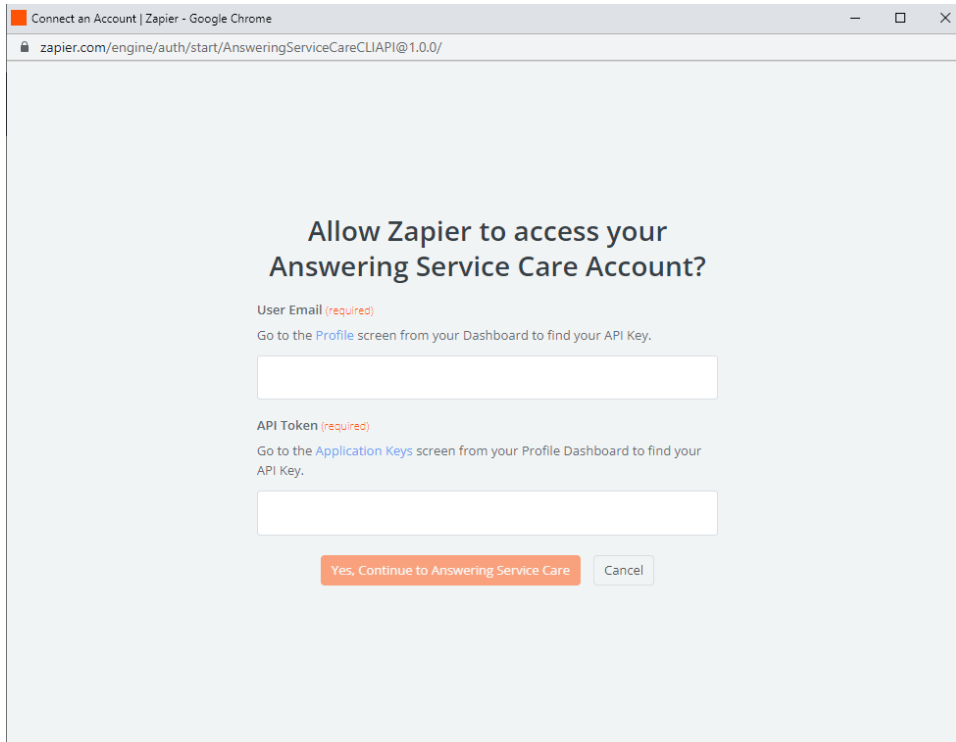

The screenshot shows the 'My Profile' page, titled 'Update your profile information'. On the left is a silhouette of a person's head and shoulders. Below it is a navigation menu with options: 'Profile Information', 'Contact Numbers', 'Password', 'Reports', and 'Application Keys'. The main content area is titled 'Profile Information' and contains the following fields:

- First name: [Redacted]
- Last name: [Redacted]
- Email: [Redacted]@answering-service-care.com
- Photo: [Choose File] No file chosen. Please upload images 200 x 138.
- Receive office messages:

At the bottom of the form is a blue 'Update Profile' button.

Set up connection to Answering Service Care

1. Sign up for a [Zapier](#) account for free, or if you already have one log in.
2. Go to **Apps**. Click **Add connection**.
3. Search for **Answering Service Care** and click it.
4. Allow Zapier access to your **Answering Service Care** Account by entering your **email** and **API key**.
5. Create connection to **Zapier**. Begin creating **Zaps** with your other connected **Apps**.

The screenshot shows a web browser window titled "Connect an Account | Zapier - Google Chrome". The address bar displays "zapier.com/engine/auth/start/AnsweringServiceCareCLIAPI@1.0.0/". The main content area has a light gray background and contains the following text and form elements:

Allow Zapier to access your Answering Service Care Account?

User Email (required)
Go to the [Profile](#) screen from your Dashboard to find your API Key.

API Token (required)
Go to the [Application Keys](#) screen from your Profile Dashboard to find your API Key.

Yes, Continue to Answering Service Care Cancel
