Dear *(Senator/Representative and Last Name)*,

I rely on customer service calls for everything from my bank to my healthcare. That is why I am asking you to support the [Keep Call Centers in America Act of 2025](#), make sure it includes clear rules for AI disclosure, and [sign this AI Disclosure Petition](#).

AI is already answering calls, but most people are not told when they are speaking to a machine. As a caller, if I were not told I was speaking to AI, I would lose confidence in the business. I have even hung up before when it became clear the voice was not human. Surveys show nearly 80% of Americans feel the same. This secrecy not only hurts customers, but it also creates confusion and frustration that damages small businesses in our communities.

This is about honesty and trust, values that Americans take seriously. If AI is handling a call, people like me deserve to be informed. Other countries already require this, and without action here, both consumers and businesses are left exposed.

Please make AI disclosure part of this legislation. It is a straightforward way to protect American jobs, support small businesses, and ensure fairness and transparency for the people you represent.

Sincerely,

(Your Name)

(City, State, Zip Code)
